

QUICK REFERENCE FOR COVID-19 SUPPORTS:

PPE Access:

Any non-hospital health provider within Huron and Perth region, who is in urgent need of PPE can submit their request to HPHA through the [New Urgent Pandemic Supply Request Form](#).

If HPHA can fulfill the request, they will coordinate the PPE; it may mean that you will need to drive to a HPHA hospital site to pick up the supplies. If HPHA cannot fulfill the request, that request will go up the chain to the regional virtual warehouse (via the London procurement team called HMMS) to assist. If London is unable to fulfill the request, it will be escalated to the Ministry's Emergency Operations Centre (MEOC).

HPHA is also offering N95 mask fit testing for LTCH staff; contact Cassandra Dejong cassandra.dejong@hpha.ca

Staffing concerns:

Visit the Ministry of Health's [Workforce Matching Portal](#)

How to get more swabs:

Contact HMMS directly and fill out the [online order form](#) obtain COVID swabs <https://hmmscovid19.ca/>
