

# COVID-19

October 28, 2021

## 1. Do you currently have one or more of the COVID-19 symptoms below that are new or worsening symptoms?

Fever/chills

Cough or barking cough (croup)

Shortness or breath

Decrease or loss of taste or smell

Fatigue and/or muscle aches/or joint pain (adults)

Nausea/vomiting, and/or diarrhea (<18 years of age)

## 2. Has a doctor, healthcare provider, or public health unit told you that you should currently be isolating (staying at home)?

This can be because of an outbreak or contact tracing.

## 3. Do you live with someone who has been told by a doctor, healthcare provider, or public health unit that they should currently be isolating?

If you are fully immunized\* or have tested positive for COVID-19 in the last 90 days and since been cleared, select “No”.

**If the individual experiencing symptoms received a COVID-19 vaccination in the last 48 hours and is experiencing mild fatigue, muscle aches and/or joint pain that only began after vaccination, select “no”.**

If you answer YES to any one of the questions above, PLEASE DO NOT enter this location AND contact your health care provider to get advice or an assessment, including if you need a COVID-19 test.

**For more information, including exceptions to above questions, please see the screening tool.**

\*A person is fully vaccinated against COVID-19 if, (a) they have received,

(a) they have received,

(i) the full series of a COVID-19 vaccine authorized by Health Canada, or any combination of such vaccines,

(ii) one or two doses of a COVID-19 vaccine not authorized by Health Canada, followed by one dose of a COVID-19 mRNA vaccine authorized by Health Canada, or

(iii) three doses of a COVID-19 vaccine not authorized by Health Canada; and

(b) they received their final dose of the COVID-19 vaccine at least 14 days before seeking access to the premises
